MirAI School of Technology - Official Student Policy Handbook 2026

Published by the Office of Academic Affairs & Student Governance

1. Attendance Regulations & Evaluation Scale

Section 1.1: Minimum Attendance Eligibility Threshold
Students are expected to attend all scheduled lectures, practical sessions, and workshops. A minimum of 75% overall attendance in each registered course is mandatory to be eligible to sit for the end-semester final examinations. Students with attendance falling below 75% face debarment from taking the final examination in that course unless formal condonation is granted by the Academic Dean under exceptional circumstances.

Section 1.2: Attendance Marks Distribution Table
Internal assessment incorporates attendance weightage evaluated according to the official attendance percentage scale:

Attendance Percentage Range	Attendance Marks Awarded (Out of 5)
95% to 100%	5 Marks
85% to 94%	4.5 Marks
70% to 74% (e.g. 72%)	4 Marks
65% to 69%	3 Marks
60% to 64%	2 Marks
Below 60%	0 Marks

Note: A student having 72% attendance falls in the 70%-74% band and receives exactly 4 attendance marks. However, having 72% attendance is below the 75% mandatory examination eligibility threshold, requiring formal condonation approval.

2. Medical Leave Procedure & Campus Governance

Section 2.1: Ratnam Campus Medical Leave Submission
For students enrolled at the Ratnam Campus, all medical leave requests and health documentation must be reported directly to Yashaswini Ma'am, the Ratnam Campus Manager. Students should contact Yashaswini Ma'am through the official Ratnam Campus Manager email or in person at the Campus Manager (CM) Office.

Section 2.2: Document Submission Deadline
Supporting medical documents (including registered doctor medical certificates, hospital discharge summaries, or prescription records) must be submitted within 7 calendar days, calculated strictly from the last day of illness/treatment or the medical consultation date for short-term illness. Submissions past the 7-day deadline will not be accepted for attendance condonation.

3. Student Clubs, Societies & Governance Rules

Section 3.1: Formation of New Societies & Sub-Clubs
MirAI recognizes interest-based sub-clubs and technical societies. For instance, students wishing to establish a new Cybersecurity Society may do so as a specialized subsidiary under the umbrella of the Coding & Tech Club.

Section 3.2: Approval Protocol & Prohibition of Management Bypass
To initiate a new student society, students must obtain written endorsement and verifiable supporting signatures from at least 40% of the total batch. The formal proposal and signature petition must be submitted directly to the designated Faculty Coordinator for initial review. Students must strictly follow this protocol and must NOT bypass the Faculty Coordinator to approach Institute Management directly.

4. Code of Conduct & Substance Regulations

Section 4.1: Tobacco & Smoking Regulations
MirAI School of Technology strictly maintains a tobacco-free and smoke-free campus environment. The possession, consumption, or sale of cigarettes, e-cigarettes, or any tobacco products on campus premises is strictly prohibited.

Section 4.2: Disciplinary Sanctions & Absence of Monetary Fine
Reported smoking or tobacco violations will be referred immediately to the Disciplinary Committee. Penalties evaluated by the Disciplinary Committee may include a formal written warning, temporary suspension from MirAI academic and co-curricular activities, withholding of semester grade cards/certifications, or official referral to the partner institution. Note: The MirAI Student Handbook does NOT specify or impose any monetary fine for smoking violations; disciplinary action relies entirely on administrative and academic sanctions.
